HOW TO TALK TO AI

@wambugu_ai

PROBLEM STATEMENT

Most people type random stuff into AI. Then complain it "doesn't work"

RULE 1 – GIVE CONTEXT

AI works better when it knows the role.
Example: "Act as my personal tutor in economics" vs "Explain economics."

RULE 2 – BE SPECIFIC

Vague prompt = vague answer.
Instead of: "Write me a blog."
Try: "Write me a 500-word blog for

RULE 3 – SHOW EXAMPLES

AI learns from examples in the prompt.
Example: "Here's a style I like [paste sample]. Write my version in the same tone."

RULE 4 – USE CONSTRAINTS

Tell AI what not to do.
Example: "Explain blockchain in 5 bullet points, no jargon, under 100 words."
